Understanding Product Management

Customers' expectations are continually rising along with the rapid speed of innovation. The product manager's function has gained popularity in recent years as firms focus on better innovation and competition. As a result, product management's function has become exponentially more complex while also becoming an increasingly important component of advancement for most firms. The main aim of this course is to teach efficient product management techniques.

Diploma in Product Management

'Product management' involves overseeing a product's entire lifecycle, from conception to launch. This diploma course covers the tasks and duties of a product manager, which include the process of identifying customer needs and designing product features to meet them. Product managers must also create pricing and positioning strategies, conduct market research and collaborate with multiple teams. Thi
